

MAINTENANCE SCHEDULE

It is the responsibility of the specifier to determine normal maintenance requirements to comply with the New Zealand Building Code Acceptable Solution B2/AS1. The extent and nature of maintenance will depend on the geographical location and exposure of the building.

As a guide, it is recommended that basic normal maintenance tasks shall include but not be limited to:

- Washing down exterior surfaces every 6-12 months*
- Re-application of exterior protective finishes if necessary**
- Maintaining the exterior envelope and connections including joints, penetrations, flashings and sealants that may provide a means of moisture entry beyond the exterior cladding.
- Cleaning out gutters, blocked pipes and overflows as required.
- Pruning back vegetation that is close to or touching the building.
- The clearance between the bottom edge of the Monotek Sheet and the finished ground must always be maintained.

**Do not use a water blaster to wash down the cladding.*

***Refer to the paint manufacturer for washing down and recoating requirements related to ongoing paint performance.*
