Hardie™ Groove Lining

Hardie™ Groove Lining

FIND YOUR GROOVE

Add a unique touch to walls, ceilings and soffits with the tongue and groove look of Hardie™ Groove Lining, a practical lining with charm and superior durability.

Hardie™ Groove Lining is a flat sheet that has vertical V-shaped grooves carved into its face.

Made of fibre cement, it will maintain its integrity and beauty even in the most demanding conditions such as semi-wet areas in laundries and bathrooms. This grooved lining is also appropriate as a ceiling lining or use externally on eaves and soffits.

Sanded smooth, it's easy to paint in any colour you choose allowing you to create stunning design features within your home.

The vertical lines suit both contemporary and traditional home designs. As an internal wall lining Hardie™ Groove Lining is also suitable in high-traffic areas like hallways, living rooms, playrooms, bedrooms and garages.

What is fibre cement?

Engineered for durability, fibre cement is resistant to fire, rot resistant and resistant to moisture damage, making it an ideal low maintenance building material. Fibre cement offers both contemporary and flexible design options and is used by many New Zealanders to create stunning homes.

The basic composition of Hardie™ fibre cement building products is Portland cement, ground sand, cellulose fibre, water and proprietary additives, which give the product its strength to stand the test of time.

Global GreenTag™ GreenRate™ Level A and Product Health Declaration™ PHD Platinum Health mean our products have passed the world's toughest standards for health, eco performance and safety.

Feature walls

Create impact by creating feature walls in your home using the vertical lines of Hardie™ Groove Lining. Painted white they provide a sleek look to your home, or go bold and paint them any colour you like.

Bathrooms

Create a statement wall in the bathroom with Hardie™ Groove Lining. The vertical lines give a striking modern look when used alongside tiles.

Hardie™ Groove Lining can be used in semi-wet areas, making it ideal for walls and along the front of baths. Combine the effect of tongue and groove lining with practicality and resistance to moisture damage.

Eaves & Soffits

The grooves are perfect for enhancing design lines for modern builds, and are equally at home on villa and bungalow renovations. Hardie™ Groove Lining is particularly well suited to larger sized eaves, verandahs, porches and carports.

Ceilings

Create a beautiful cathedral style ceiling in your home with Hardie™ Groove Lining. These stunning high panelled ceilings suit a range of home styles from modern beach houses to rustic or classic country cottages. Painted in white or neutral tones, maintains the grandeur of space.
